

SPECIALIST.

MOTORBIKE

CHAIN CLEANER

PRODUCT OVERVIEW

A water dispersible degreaser designed to solubilise newly deposited, oxidized or aged greases and oils. Suitable for subsequent removal by rinsing with cold water.

FEATURES AND BENEFITS

- Softens and solubilises all greases and oils.
- Fast and easy rinsing.

TYPICAL APPLICATIONS

On metallic surfaces and most rigid thermosetting plastics for all engineering applications.

DIRECTIONS FOR USE

Spray liberally onto the surface to be treated, and allow to remain in contact for up to five minutes. Collect contaminated or superfluous liquid in a tray, or similar confinement. Agitation with a brush will assist in the removal of heavy or stubborn contamination. Flush with water to remove contamination and dry with a cloth or towel. Always work under well ventilated conditions, taking care to avoid vapour inhalation. **NOTE: All contaminated oils and other hydrocarbons must be disposed of responsibly, in accordance with local authority regulations.**

WHERE NOT TO USE

- On decorative substrates, where coatings may be affected.
- On soft plastics or rubbers, without first ascertaining suitability of use.

TECHNICAL DATA

PHYSICAL PROPERTIES

Appearance	Clear, water white aerosol mist with a characteristic organic odour.
pH	Not applicable, non-aqueous.
Specific Gravity	0.768 - 0.778 [Base Component]
Flammability	Extremely flammable, flash point below - 20°C
Non Volatiles % m/m	0.5 - 1.5
Active Content % m/m	70 - 80
Composition Data, descriptive	A solution of aliphatic hydrocarbon solvent, aliphatic alcohol, non-ionic surfactant and hydrocarbon propellant.
Availability	400ml Aerosols.
